MOODELITE

Patent No. PCT/CN2019/126929

MoodElite® is a specially formulated botanical blend with three traditional Asian herbs: *Hypericum perforatum*, *Eleutherococcus senticosus*, and *Paeonia suffruticosa*.

Why Choose MoodElite®

Provides a synergistic interaction with the least possible *Hypericum Perforatum*
Utilizes powerful adaptogenic herb
Smaller dosage with higher efficiency
Improves overall mood health

Supported forms:
Capsule

Dosage:
300-500 mg/day

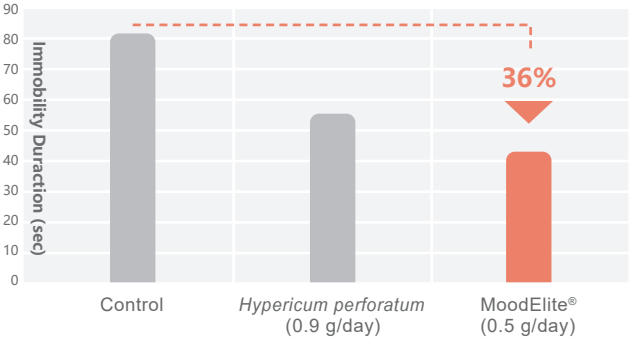
Applicable to:
People with depression
People who suffered from work or life stress
People with sleep disorder

Animal Trial

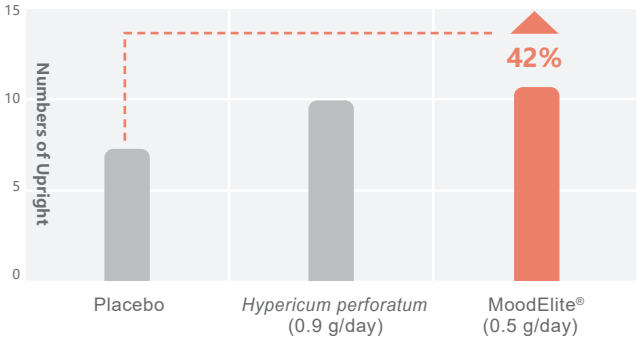
In the mouse tail-hanging study, MoodElite® effectively shortened the time that mice give up struggling after being hanged by 36%. It improved their depression and increased excitability.

In the rat open field test study, MoodElite® effectively increased the numbers that rats upright in the open field by 42%, improving depression.

MoodElite® Reduces Immobility Duration in Depressed Mice



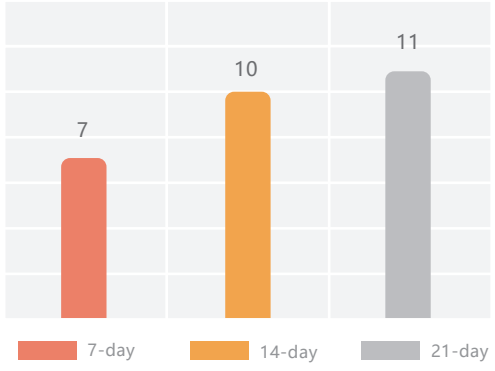
MoodElite® Increases Numbers of Upright in Depressed Rats



Human Clinical Trial

A 21-day open-label clinical trial was conducted, involving 15 middle-aged elderly subjects with sleep problems. The results show that MoodElite® can significantly improve sleep quality, reduce the time it takes to fall asleep, minimize sleep disturbances, and alleviate sleepiness throughout the day.

Subjects number whose PSQI scores reduced more than 20% in different visit day



Subjects number whose sleep quality has been improved
