# What is Jadeimmune™ ?

## Alternative Medicine Natural Supplements, Support Physical Rehabilitation and Immune Remodeling.

Jadeimmune™ is a traditional formulation containing a complex extract of *Astragalus membranaceus* root, *Atractylodes macrocephala* rhizome and *Saposhnikovia divaricata* root. Three herbal straight powders are first blended, then extracted with 100% purified water by following the Chinese Pharmacopoeia process to guarantee product efficacy. All manufacturing procedures strictly follow Good Manufacturing Practice protocols.

The formulation has been studied extensively in China for its immune boosting effect, with over 1,000 cases confirming a reduction in respiratory distress caused by the flu, viruses, and allergies-and overall balancing the immune system. Jadeimmune™ is safe and suitable in a wide demographic range from children to the elderly. Health benefits include immunity support, respiratory health and allergy relief with a recommended dosage of 1-2 g.

## Reliable and Established History in Traditional Asian Medicine

Jadeimmune™ was developed from the ancient Asian classical formula, Jade Screen Powder, which has been widely used in Asian countries such as Korea and Japan<sup>[1][2]</sup>. As a natural plant-based

### *Astragalus membranaceus*

It is harvested from Longxi County in Gansu Province, dubbed “the hometown of *Astragalus membranaceus* in China”, growing on fertile land that ensures an abundance in active components, like Astragaloside IV (C<sub>41</sub>H<sub>68</sub>O<sub>14</sub>). *Astragalus* has more than 2,000 years of edible history and a wide range of applications worldwide. It can be used in food or medicinal formulations and has been utilized as a dietary ingredient in the U.S. market whilst simultaneously being listed as an Herb of Commerce in the Chinese market. It is suitable for strengthening fitness and has been used in a variety of dietary supplement products found to improve the treatment and prevention of respiratory diseases, in addition to promoting healthy respiratory function.<sup>[4]</sup>
