

# CLINICALLY PROVEN FORMULA TO Support Hormonal Balance and Bone Health

-  Improves Bone Mineral Density, Bone Strength, and Bone Elasticity
-  Reduces Fracture Risk
-  Improves Calcium Absorption
-  Balances Estrogen

**EUBONE**  
PHYTOESTROGEN

Patent pending No. 17035808

EuBone® is a specially formulated botanical blend with three traditional Asian herbs: *Eucommia ulmoides*, *Drynaria fortunei* and *Cuscuta chinensis*.

## Why Choose EuBone®

The first herbal formula to bidirectionally regulate the calcium and phosphorus metabolism. Bidirectionally regulates the balance of osteoblasts and osteoclasts. Regulates the bone metabolism signaling pathway by decreasing the ratio of RANKL/OPG by 45%.

## Supported forms:

Capsules, Tablet

## Dosage:

500-1000 mg/day

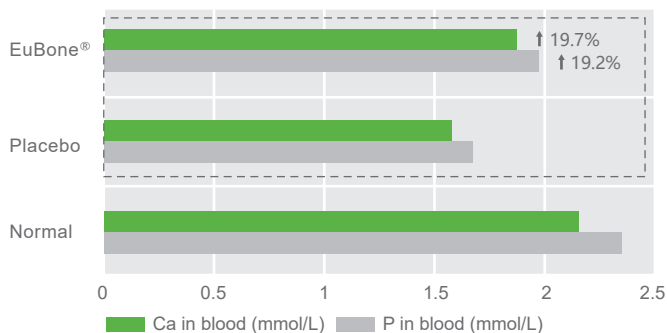

## Applicable to:

Menopausal and postmenopausal women  
People with osteoporosis caused by drugs  
Middle-aged and elderly who are prone to fracture

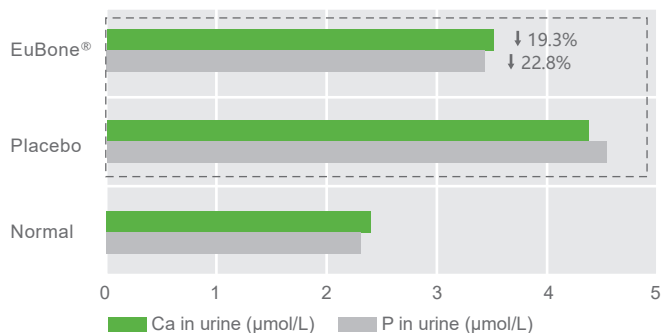

## Animal Trial

EuBone® can improve the content of calcium and phosphorus in the blood of osteoporotic model rats by reducing the content of calcium and phosphorus in urine, thereby effectively regulating the balance of calcium and phosphorus to reduce the loss of minerals.

**EuBone® increases the concentration of Ca&P**

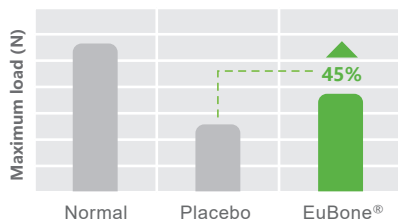

**EuBone® decreases the concentration of Ca&P**

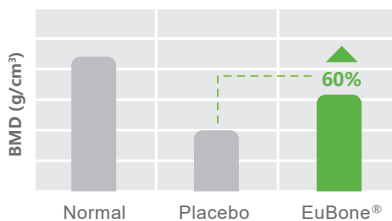

EuBone® can significantly improve the bone microstructure of osteoporotic model rats, increase bone density, bone strength, bone elasticity and reduce the risk of fracture.

**EuBone® increases bone strength (N)**

**EuBone® increases BMD (g/cm³)**

**EuBone® increases bone elasticity (N)**

**3D-microCT images**

\*Our clinical trial is ongoing and scheduled to be completed by the end of 2021.

### Product Stability

Two-year shelf life if stored under cool, dry and dark conditions

### Our Customized Service also Includes:

Contract Manufacturing for Finished Product and Botanical Extraction  
Formulation Design  
Functionality Evaluation
