

Supporting Kidney Health and Healthy Blood Pressure

from the Depths of the Ocean

-  Supports Normal Blood Pressure
-  Promotes Cardiovascular, Circulatory, and Metabolic Health
-  Potent Anti-Inflammatory and Boosts Collagen Levels
-  Helps Maintain Healthy Kidney Functions

Patent No. ZL201710976766.7

Utilizes marine protein peptides prepared by our eco-friendly patented bionic enzymolysis technology of Philippine clams. Traceability is guaranteed through strict quality control throughout the production process.

Why Choose ClamBP™

ClamBP™ is our natural solution to protect overall kidney health, help maintain normal blood pressure, and provide hypertension support. It has many applications to provide a boost to healthy blood pressure, to support an overall healthier heart and life.

Supported forms:

Capsules, tablets, solid beverage and other forms. Can be applied to dietary supplements, food and beverages.

Dosage:

Amount per serving: 500 mg daily
 Food & Beverage: 1 serving
 Dietary Supplement: 2 servings
 Medical food: 4 servings

Applicable to:

People looking to Support Overall Renal and Circulatory Health
 People looking to Maintain Healthy Blood Pressure
 People looking to Support Healthy Cholesterol Levels

Pre-Clinical Study

The detection of BUN (Blood Urea Nitrogen) can provide a basis for the assessment of kidney damage. Compared to placebo, ClamBP™ can decrease the concentration of BUN effectively.

ClamBP™ can reduce the concentration of ACE and increase the concentration of ACE2 in kidney in SHRs, indicating that ClamBP™ can effectively protect long-term kidney health.

Clinical Study

The results of a 6-week open-label clinical study showed that ClamBP™ is safe and effective in maintaining normal blood pressure. Results showed that Diastolic Blood Pressure returned to normal.

Mechanism of Action

ClamBP™ specifically inhibits the expression of RAS-related pathway factors, regulating the concentration of key biomarkers such as ACE\ACE2\Ang-II in blood and kidney tissues, thereby protecting overall kidney function and promoting circulatory health.
