

CLINICALLY PROVEN FORMULA TO
**Support Hormonal Balance
and Bone Health**

-  Helps regain and maintain healthy bone density and strength
-  Increases calcium and phosphorus absorption and balance
-  Optimizes female hormonal balance

Patent No. US20210069275A1

EuBone® is a specially formulated botanical blend with three traditional Chinese herbs: *Eucommia ulmoides*, *Drynaria fortunei* and *Cuscuta chinensis*.
NDIN#1262 Notified by FDA

Applicable to:

Menopausal and postmenopausal women
Middle-aged and elderly

Why Choose EuBone®

- 2 Human clinical trials
- 2 Pre-clinical studies
- 2 Safety studies
- 1 Mechanism of action study
- 1 Patent
- 2 Peer-reviewed publications
- 15 Structures/Function Claims without FDA objection
- 500-1,000 mg daily dose
- Non-GMO, Allergen-free, Kosher, Halal, Vegan
- In Stock in California Warehouse with steady supply-chain

Supported forms:

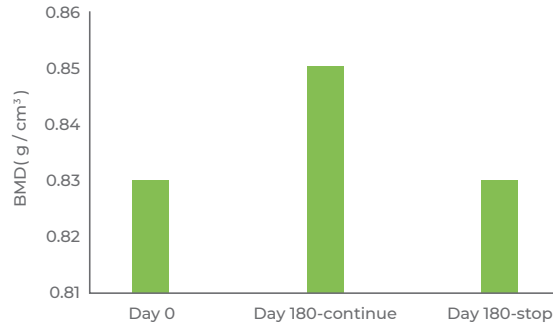

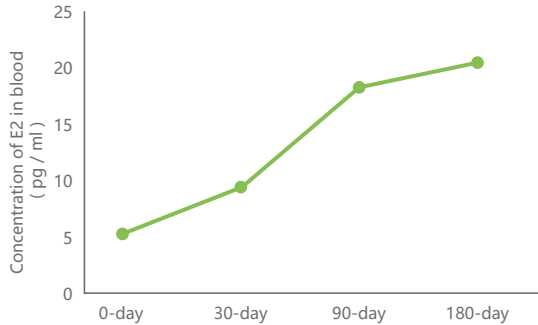

Capsules, Tablets

Dosage:

500-1,000 mg/day

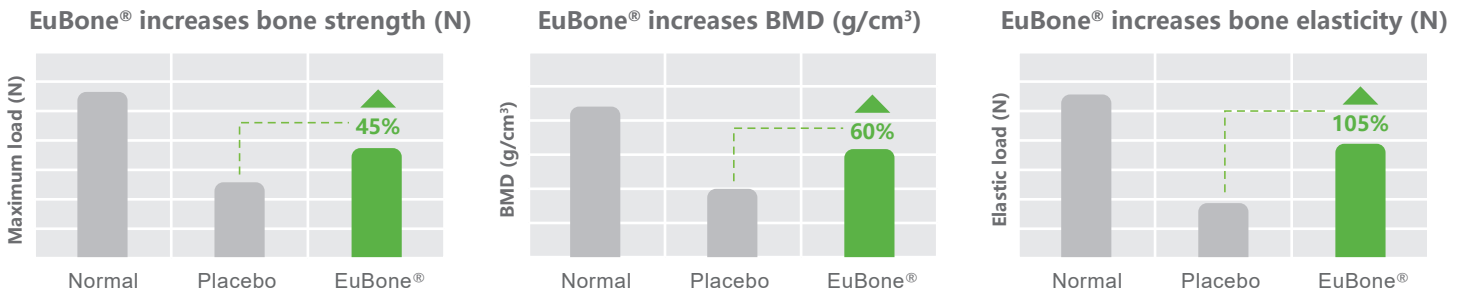

Human Clinical Study

A 180-day, single-center, open-label human clinical study was conducted to prove the efficacy and safety of EuBone®. The subjects aged between 50 and 80 years old with mild to moderate osteoporosis were enrolled. The results showed that EuBone® formulation can significantly increase the estradiol level in postmenopausal women by 2.9 times, and further promote their bone health by Bone Mineral Density (BMD) up to 2.4%.

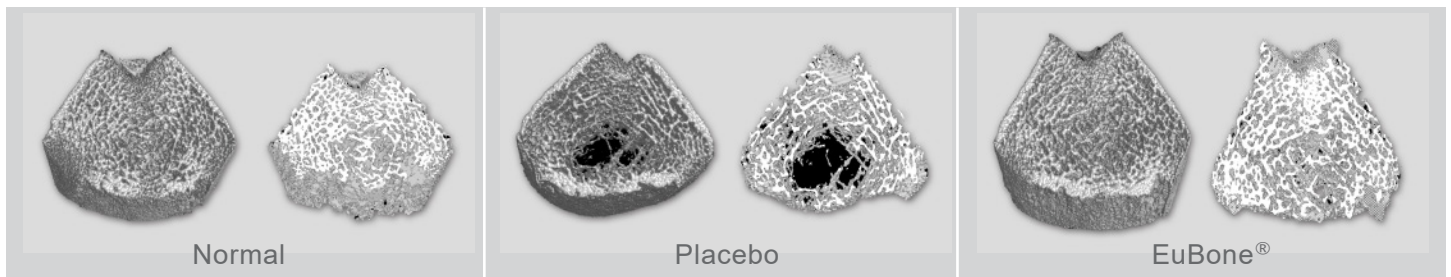

Animal Trial

EuBone® can significantly improve the bone microstructure of osteoporotic model rats, increase bone density, bone strength, bone elasticity.
